

SUGAR TRUST MEN INDICTED

Directors and Two Lawyers Accused of Conspiracy.

FOURTEEN COUNTS IN BILL

Charged With Crude, Unscrupulous Company's Plan in Philadelphia in Restraint of Trade—The Penalty Is Fine and Imprisonment.

New York July 1.—A terrible indictment was returned yesterday by the Federal grand jury, the United States government having laid the groundwork for another signal case against the American Sugar Refining Company and its co-conspirators in restraint of trade and profiteering. The defendants, company and individuals, are charged with having conspired to restrain or limit production and restrain of trade under a criminal clause of the Sherman antitrust law, which provides that anyone who violates a fine of not more than \$100

or imprisonment for not more than one year. The indictment charges that the individuals, and a few of them at most, have been guilty of a course of a conspiracy.

The indictment consists of two parts. The first part concerns the American Sugar Refining company; Arthur C. Parsons, president; John E. Parsons, Jr., of New York; John K. Morrissey, of Morrissey, M. J. and George F. Parsons, Jr., of Morrissey, Parsons & Morrissey, directors of the company. The others indicted are Chester A. Elkins and Thomas J. O'Farrell, of the American Sugar Refining Co., of Newark, N. J.; Frank J. Dugan, whose plant in Philadelphia, was shut down by the trust, and when it was re-opened, with the testimony of Morrissey, recently settled out of court, largely furnished the basis for the present indictment.

The second part of the indictment consists of two parts. The

indictment charges that the two men, Thomas J. O'Farrell, of Newark, and John E. Parsons, Jr., of New York, were engaged in a plot to restrain trade.

Arthur C. Parsons, Jr., and his son, John S. Parsons, of Newark, were indicted for a week, as the result of a plot to restrain trade.

Frank J. Dugan, whose plant in Newark, was made to stand still by the trust, and when it was re-opened, with the testimony of Morrissey, recently settled out of court, largely furnished the basis for the present indictment.

The indictment also includes the names of the persons involved in the

trust, and the names of the persons involved in the plot to restrain trade.

A list of the charges most of which has been brought out herebefore in the sugar trust cases, and which concern the sugar Refining company and the individual defendants, and the accomplished control of the Pennsylvania Sugar Refining Company by Arthur C. Parsons, Jr., and his son, Arthur C. Parsons, Jr., and the agent for a period unknown at the time he was named as a director, when he became a defendant, corporation to be restrained of trade, and the company with a majority stock a voting power of the holder of 22,000 shares of common stock.

Klaus is charged, in pursuance of a previous statement, that he was among the members of the Pennsylvania sugar trust on Dec 20, 1904, at Philadelphia, and that he was instrumental in the adoption of a resolution closing up that company's business.

Trojanique demands injunction.

Pittsburgh July 1.—The employees of the Master Pennsylvania Industries have voted to have a demand for a wage increase of \$1.50 per hour. They are now being paid \$1.12 and \$1.15 per hour, according to length of service. The company is willing to add one cent an hour to each of these rates, but the workers do not accept to receive the raise.

SCHOOL BOARD'S JULY MEETING

Several Members again Engage in Controversy. Prof. Burgess Present at Meeting Makes Various Suggestions, Other Business.

The Gettysburg School Board held its regular July meeting in the Hotel on Wednesday evening, July 1, and discussed many items in the wind.

The trouble this time, it was thought by all, was due to the fact that Prof. Burgess, who had been invited to speak, did not attend the meeting.

Mr. McDowell declared that he thought the secretary should have sent notices of the meeting to all the schools, and implied that he thought Mr. Burgess would have been there had he received such a notice.

Secretary McDerrell replied that as far as notices had been sent out for a year or two past, it did not seem necessary for him to send notices to all the schools.

He further said that in the future such notices would be sent to the schools.

Directors Biddle, Warner and Culp at once announced that they needed and wanted to make changes in the school system, and therefore the notices will be sent to Messrs. McDerrell one name at a time.

Very little business was transacted at the meeting. Prof. Burgess, the newly elected principal was present and was asked to speak, but made no changes in the arrangement of the schools and courses of study. Prof. Burgess was asked to speak, and the number of buildings and rooms and some changes in the division of the schools were mentioned. Dr. Thomas appeared before the Board in behalf of applicants for the position of teacher in the colored schools. No action was taken.

A number of bills were approved and the Board adjourned.

OVERCOME BY 8000 FT. OF GAS

Night Man at Plant of Bethlehem Gas Company Overcomes by Flow of Gas Falls to His Unconscious. Ruleford Rescues from Position.

(Continued from page 1) of the Gettysburg Gas Company, was at a regular escape from death by expediting an early Thursday evening when he was overcome by over eight thousand feet of gas, which escaped following an accident in the plant.

Mr. Trimble was heavily engaged in cleaning the pipes when a valve, which controlled the gas, exploded, causing the gas to flow into the tank. Three sheets of metal were torn from the tank and the main valve was blown off.

To help him, Mr. Trimble got for him a ladder and Harry McFate, who works at the Western Maryland Railroad, came along and found the man lying there. The strong odor of gas told Mr. McFate at once that the man must be dead. He hurriedly dragged Trimble into the house.

He then called for a doctor for whom he had to wait half an hour. When he arrived he found Trimble unconscious.

He was required consciousness after a little time and several hours later was able to go back to work again. He had a bad case of gas poisoning, but his unaided experience.

The Gettysburg consumers of gas were greatly concerned about the account of the accident at the plant from which the town was being supplied. It was the strongest gas ever used in the plant.
